

Century Station
112 1st Avenue & State, Saint Charles, Illinois

Client: Century Station
Architect: Timothy Morgan Associates
Role: Construction Manager

International Contractors, Inc. served as the Construction Manager for Century Station, a 40,000 SF free-standing facility located in the historic downtown district of Saint Charles, Illinois.

This building housed high-end office space and two restaurants - The Charleston Club and the Fox Bay Brewing Company. Currently the building serves as the Fire Department for Saint Charles.

The building's exterior was designed to complement the historic architectural features of surrounding buildings. The exterior bricks were salvaged from the historical Moline Malleable Company, which dates from the late 1800's and early 1900's. The creative re-use of the bricks presented a "historically" modern architectural addition to the oldest area in the downtown district of Saint Charles.
