

Chancery of the Consulate General of The Netherlands
303 East Wacker Drive, Chicago, IL

Client: Consulate General of The Netherlands
Architect: PPKS Architects, LTD.
Role: General Contractor

This project for the Chancery of the Consulate General of the Netherlands, located on the 26th Floor of the 303 E. Wacker building in Chicago, was completed in two phases to allow the Dutch Consulate to remain open throughout construction.

The scope of work included re-configuring conference rooms and offices, renovating the lobby, adding new lighting, and installing new carpeting and wall coverings within the 7,800 SF space.

During construction many security features, including a new mantrap, were added or enhanced and technology systems were updated throughout the space. Additionally, the entryway to the Consulate's internal offices were upgraded with new millwork and three, back-lit, glass artwork panels were installed reflecting the essence of the Netherlands.

This fast-track, multi-phased project was completed on-time and within budget in May, 2009.
