

DuPage Mayors and Managers Conference
1220 Oak Brook Road; Oak Brook, IL

Client: DuPage Mayors and Managers Conference
Architect: PHN Architects
Role: General Contractor

International Contractors' record for quality municipal construction was key in securing the contract for this expansion and renovation project. The building is the regular meeting place for chief administration officials from 36 area municipalities. The scope of work included two additions and a renovation of over 90% of the existing structure.

Many areas were reconfigured to improve traffic flow and storage capacity. The loading dock area was enclosed, and a new entrance with handicap ramp accessibility was installed.

The building's steel infrastructure was reinforced in order to support the additions. ICI's team renovated the existing HVAC system by adding new roof-top units and screens. Also, a sprinkler main was installed, and the water and electrical systems were updated. New flooring, wall treatments and ceiling finishes in the existing building now matched those in the addition.

Additional parking spaces, existing lot repaving, storm drainage curbs and gutters, and lighting upgrades improved the parking lot's appearance and capacity.
