

Loeber Motors Smart Car
4255 West Touhy Avenue, Lincolnwood, Illinois

Client: Loeber Motors
Architect: Valerio DeWalt Train Associates
Role: General Contractor

International Contractors, Inc. was contracted by Loeber Motors to remodel existing showroom space for its new Smart Car line.

Loeber Motors wanted the Smart Car showroom to be available within 8 weeks, so ICI set an aggressive schedule and completed the 2,400 SF build-out on-time and budget.

Night work included demolition of the existing showroom floor in preparation for the build-out. The area's original

felt ceiling was covered in durable plastic to protect it from any dust or potential damage.

ICI installed an armature wall display and ceramic tile to complete the desired Smart Car look.

The dealership remained open during the duration of the project, requiring ICI to work around the Loeber employees and customers in order to avoid disruption.
