

Martini Park
Plano, Texas and Chicago, Illinois

Client: The Barish Group
Architect: Jeffrey Beers International
Role: General Contractor

ICI was honored to be selected by The Barish Group to serve as the general contractor in the construction of this upscale martini bar and restaurant in the Legends Shopping Center in Plano, Texas; and shortly thereafter, a second Martini Park in Chicago, Illinois at 151 W. Erie.

Both restaurants were 7,000 SF interior build-outs and both were designed by the world-renown architect Jeffrey Beers whose credits include Japonais in New York and Chicago, Rum Jungle in Las Vegas and Ono in New York.

Both Martini Park restaurants boast high-end finishes, subdued lighting and intricate detailing. And each features an amber stone bar and two limestone waterfalls that can be uplit in custom colors. Several private booths and a myriad of flat-screen televisions add to the ambiance of the restaurants with their "look" of sophisticated, upscale ski lodges.

The Barish Group is well known for its acclaimed Light Night Clubs in Las Vegas and New York and the exclusive Marquee in New York.
