

Trader Joe's
Glen Ellyn and Downers Grove, IL

Client: Trader Joe's East, Inc.
Architect: Taylor Associates
Role: General Contractor

International Contractors, Inc. built out two existing retail stores into gourmet grocery stores. The features of the 12,000 SF stores include cedar siding featured throughout the space and new platform lifts for unloading products into the stores.

While managing the construction during the ten week schedule, ICI also coordinated all Owner purchased items, including refrigeration, fixtures, shelving units and last minute changes.

Both projects were completed on-time for their well-publicized grand opening.

Trader Joe's is a private family-run company with more than 130 stores throughout the United States. The stores in Glen Ellyn and Downers Grove are part of the expansion of Trader Joe's in the Midwest.
