

Visitation Catholic School & Parish Elmhurst, Illinois

Client: Visitation Catholic Parish
Architect: DLA Architecture
Role: General Contractor / Construction Manager

Visitation Catholic Parish in Elmhurst, IL has called upon International Contractors, Inc. on numerous occasions in recent years.

Projects have ranged from wash-room and corridor renovations, multi-purpose room remodels, cooling tower construction, HVAC upgrades, and emergency repair of the churches' steeple.

During our most recent project, which incorporated HVAC upgrades and the construction of a new cooling tower, ICI suggested multiple

value engineering alternatives which were accepted by the building committee. The realized savings on the project were in excess of 5% of the cost of the work.

ICI worked with the Parish to meet the challenges of coordinating work crews around regularly scheduled daily masses and unexpected funeral masses. Additionally, ICI worked carefully to arrange necessary underground tie-ins without interrupting the daily activities of the parish or school staff, visitors and students.
